# NECTAR CHILD SERVICES

## About US

Established in 2012, Nectar Child Services focus is to provide the best holistic care to families.

We offer family day care through our educators and are excited to announce the opening of our new long day care in Woodlands.

## PROGRAM

*PLAY BASED LEARNING*

Children learn:

- Social and cognitive skills
- Gain confidence within their environments
- Getting ready for school learning activities
- Becoming independent
- Making friends
- Yoga and mindfulness

Private outdoor play areas, vegetable garden and reading nooks for quiet time, there's plenty to keep little people busy and happy!

*GREEN MENU "SATTVIK PURE SYSTEM"*

Our seasonal menu is designed by Dr Vidhu and incorporates Sattvik practices (pure food, high micro nutrients) vegetarian without any animal products.

All menu items meet nutritional requirements and Australian dietary guidelines.

80% of our food is grown onsite in the organic kitchen garden.

*HOME ENVIRONMENT*

Children thrive in a home based environment where they can grow and belong in a place filled with love. An inclusive space where they always feel welcome.

# SUSTAINABILITY & SELF SUFFICIENCY

## HEALTHY EATING & CHILDREN PARTICIPATION

We have an onsite organic kitchen garden to grow food for meals with specially designed menus.

Children are encouraged to participate in the kitchen garden to learn about growing food, recycling, composting and sustainability.

## KITCHEN GARDEN

Sustainable practices drive how we operate our childcare centre.

From inclusion of a full kitchen garden where children get involved with choosing vegetables for their lunch.

To things you can't see behind the scenes (listed below) working to reduce our carbon footprint.

## CENTRE INITIATIVES

To support sustainability we have installed:

- Rainwater tanks
- Solar panels
- Water wise gardens
- Recycling and composting centre
- Play spaces designed to take in natural light

We use:

- Bio-degradable cleaning products
- Play materials from natural products where possible
- Energy efficient products/materials where possible

We educate and inspire children to learn these practices from a young age.

## COMMUNITY INVOLVEMENT

We proudly support local businesses in Perth in the development and maintenance of the centre and provision of services.

Dear Parents / Carers;

Children are our future, it's our honour to help you nurture, educate and inspire your children to their full potential.

Our vision is to ensure all children get an exceptionally good start in their early years through learning, interactions and positive experiences with those they are around.

We work closely with educators, families and communities to fulfil this vision and provide the best care possible.

*Rukshmani & Sudheer*
